

ABOUT OUR COMPANY

CB Services Group is rooted in the passion and expertise of its founders, Charlie Brown and Chris Bland. It all began with their hands-on approach to electrical work, honing their skills and reputation for high-quality craftsmanship. As their partnership flourished, their trusted professional bond led to the successful delivery of projects for prestigious clients. This momentum fuelled their commitment to pushing CB Fire and Electrical forward, resulting in substantial growth and the acquisition of their first office.

The continuous expansion of their workforce and facilities, as well as the strategic business planning for direct client engagement, paved the way for the re-branding of the company to CB Services Group Ltd. This transformation reflects a fresh, modern outlook of forward thinking and innovation, positioning the company to support clients with the challenges they face today while developing services to meet evolving needs.

With a foundation built on exemplary workmanship, professional trust, and a commitment to growth and innovation, CB Services Group Ltd is poised to offer unparalleled electrical and fire installation services to its clients.

MEET THE DIRECTORS

Charlie Brown
Managing Director

Charlie possesses a deep understanding of safety and compliance regulations, which he acquired through his apprenticeship and extensive industry experience. With over two decades of expertise, he is effectively guiding the company to provide exceptional services that ensure complete client satisfaction to our clients.

Chris Bland
Operations Director

Chris is also a seasoned professional in the industry with extensive expertise in installation and testing. Throughout his career spanning 16 years, he has successfully executed numerous electrical and fire safety projects. After working together in 2016, Charlie and Chris established CB Electrical and Fire and following continued success CB Services Group has evolved.

OUR ACCREDITATIONS

OUR VISION

CB Services Group will continue its growth by working in collaboration with social housing providers and local authorities. We are committed to providing compliant installations that ensure building regulations are met, thereby guaranteeing safe and warm homes for residents.

Our focus is on addressing legacy compliance issues in buildings, ensuring they align with current regulations. We aim to deliver fast, efficient, and certified services to support the cyclical and capital works programmes of our clients.

With a large in-house resource of qualified engineers, all certified to statutory compliance organisations, we prioritise high-quality workmanship in our team.

Additionally, we are dedicated to the installation of innovative products that offer sustainable solutions with whole lifecycle costings, empowering our clients to reduce their energy budgets and support the planet. By doing so, we enable our clients to concentrate on other pertinent issues within their organisations and communities that provide greater benefit to their customers.

WHERE WE WORK

CB Services Group coverage area includes Inner London, Essex, Kent, Cambridgeshire, Suffolk, Hertfordshire, and Surrey. Our team of highly skilled professionals is well-equipped to handle projects of all sizes and complexities. Whether it's in the social housing, local authorities, educational, commercial or healthcare sectors, we have the expertise to deliver exceptional results.

OUR VALUES

T Team Work

Our success is driven by teamwork and collaboration. We value the strength of our team and promote a culture of mutual respect and open communication to surpass client expectations and achieve shared goals.

T Turn-Up

We prioritise reliable service delivery and efficient processes to ensure on-time programs and success through dependable partnerships.

H High Standards

Upholding high standards is non-negotiable. We strive for excellence in every aspect of our work, setting and maintaining rigorous standards to ensure the quality and reliability of our products and services.

R Reduce, Reuse, and Recycle

We implement the principles of the 3 R's as well as actively seeking out innovative, sustainable methods, to significantly lessen our impact on the environment and contribute to a more sustainable positive future.

U Understanding

We actively listen to our clients and their customers, demonstrating our sincere and genuine care and commitment to establish trust and foster stronger connections to support them during our service delivery.

OUR SERVICES

Electrical

Experience peace of mind with our first-class electrical installation services. Whether you're a social housing provider, local authority, an educational institution, a commercial business, or a healthcare facility, our skilled team ensures that all your electrical needs are met with the highest level of expertise and precision. With our reliable electrical installations, you can rest assured that your property is safe, efficient, and compliant with industry standards. Get a seamless functioning environment with our exceptional service.

Additionally, we make sure we use whole lifecycle, sustainable products by manufacturers such as Wylex and Electrium, due to their comprehensive range and compliancy.

Fire

Fire safety systems are crucial for protecting people and assets from fire and emergencies in buildings. These systems work together to support the property's fire strategy. It is vital to correctly install and maintain these systems throughout their lifespan to ensure the safety of building occupants and minimise damage.

CB Services Group provide comprehensive support to our customers, from design to maintenance, ensuring their systems are reliable and in compliance with the Building Safety Act and other statutory regulations. We use market leading recognised products manufactured by industry specialists; AICO, Firefly and Rockwall as well as using certified installers.

ECO

As a responsible company, we have implemented a strategy to reduce our carbon emissions and reach a state of net-zero. Our objective is to contribute towards the mitigation of global warming throughout our entire supply chain. Therefore, we are dedicated in supporting our clients in their efforts to achieve zero carbon, with the aim of creating sustainable communities and promoting healthier lifestyles for their residents.

We support the Ombudsman by complying with health and well-being regulations, supporting Awabb's Law for safe damp and mould free homes, and make a positive impact on the environment.

Security

Security systems are essential for commercial properties in the UK, including residential premises, offices, and care facilities. It is crucial to design and install a system that can achieve your desired outcome, whether it's deterring anti-social behaviour, preventing theft, or monitoring movements. The security technology available today, such as AI, UltraHD cameras, and monitoring software, allows for personalised designs within different budgets. Maintenance is necessary to ensure the system performs as intended, including regular cleaning, checking, and adjusting of cameras.

Compliance

CB Group Services is a leading provider of electrical compliance solutions. Our team of experts is dedicated to helping businesses ensure that their electrical systems meet all necessary regulations and standards. We understand the importance of compliance in maintaining the safety and efficiency of electrical installations. With our comprehensive range of services, we can assist businesses in conducting thorough electrical inspections, testing, and certification. Our compliance services cover a wide range of areas, including electrical safety, wiring regulations, and equipment testing. By partnering with CB Group Services, businesses can have peace of mind knowing that their electrical systems are fully compliant with industry standards.

OUR PROJECTS

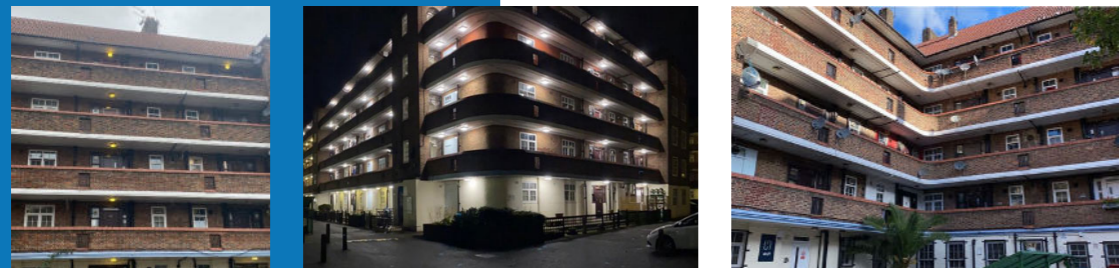

At CB Services Group, we take great pride in the range of services we offer to all sectors, delivering much-needed improvements. Our team of dedicated Project Managers and skilled electrical professionals embody a philosophy centered around customer satisfaction, punctuality, and staying within budget.

Whether we are working with housing associations, local authorities, educational facilities, commercial businesses or healthcare facilities, conducting any of our services, we ensure compliance with the latest legal standards and our goal is always to surpass the expectations of our clients.
